CODE FOR CONSTRUCTION PRODUCT INFORMATION

SUPPORTER OFFER

Supporters of the Code for Construction Products are individuals or companies that use or specify products in the construction and maintenance of the build environment. Being a CCPI Supporter means you are committed to the aims of the Code to ensure that disingenuous marketing practices and the provision of misleading product information becomes a thing of the past.

Who are CCPI Supporters?

Supporters of the Code for Construction Products are individuals or companies that use or specify products in the construction and maintenance of the built environment. Supporters can be contractors using products, such as Tier One contractors and sub-contractors; professionals such as architects, structural engineers, surveyors, consultants, planners; interested organisations like Local Authorities who procure construction builds and maintenance; or clients such as Sainsbury's or Salix Homes.

The common factor that binds Supporters together is that they want to use and recommend products whose information can be relied on to be Clear, Accurate, Up-to-date, Accessible and Unambiguous – CCPI Verified Products. Supporters want to trust the information provided by manufacturers when making design decisions, installing and using and maintaining the built environment.

What does being a CCPI Supporter mean?

Being a CCPI Supporter means you are committed to the aims of the Code to ensure that disingenuous marketing practices and the provision of misleading product information becomes a thing of the past.

Supporters will show this commitment in their procurement and specification practices, including CCPI Verification as an integral factor when choosing or specifying products or insisting on the use of CCPI Verified Products in their supply chain partners.

What do Supporters get in return?

- Supporters will have access to an up-to-date list of organisations and the products that are verified as meeting the requirements of the Code.

- Supporters will also be able to see which organisations have registered for CCPI and which products they have been chosen for Product Verification within the next three months.

- There will be a small fee to become a CCPI Supporter to cover the administration of the product list.

- As the list is commercially sensitive, there will be strict protocols around use of the information in the list.

- Supporters who register and pay the administration will have their logo displayed on the CCPI Supporter page on our website.
